

What kind of person can climb a mountain?

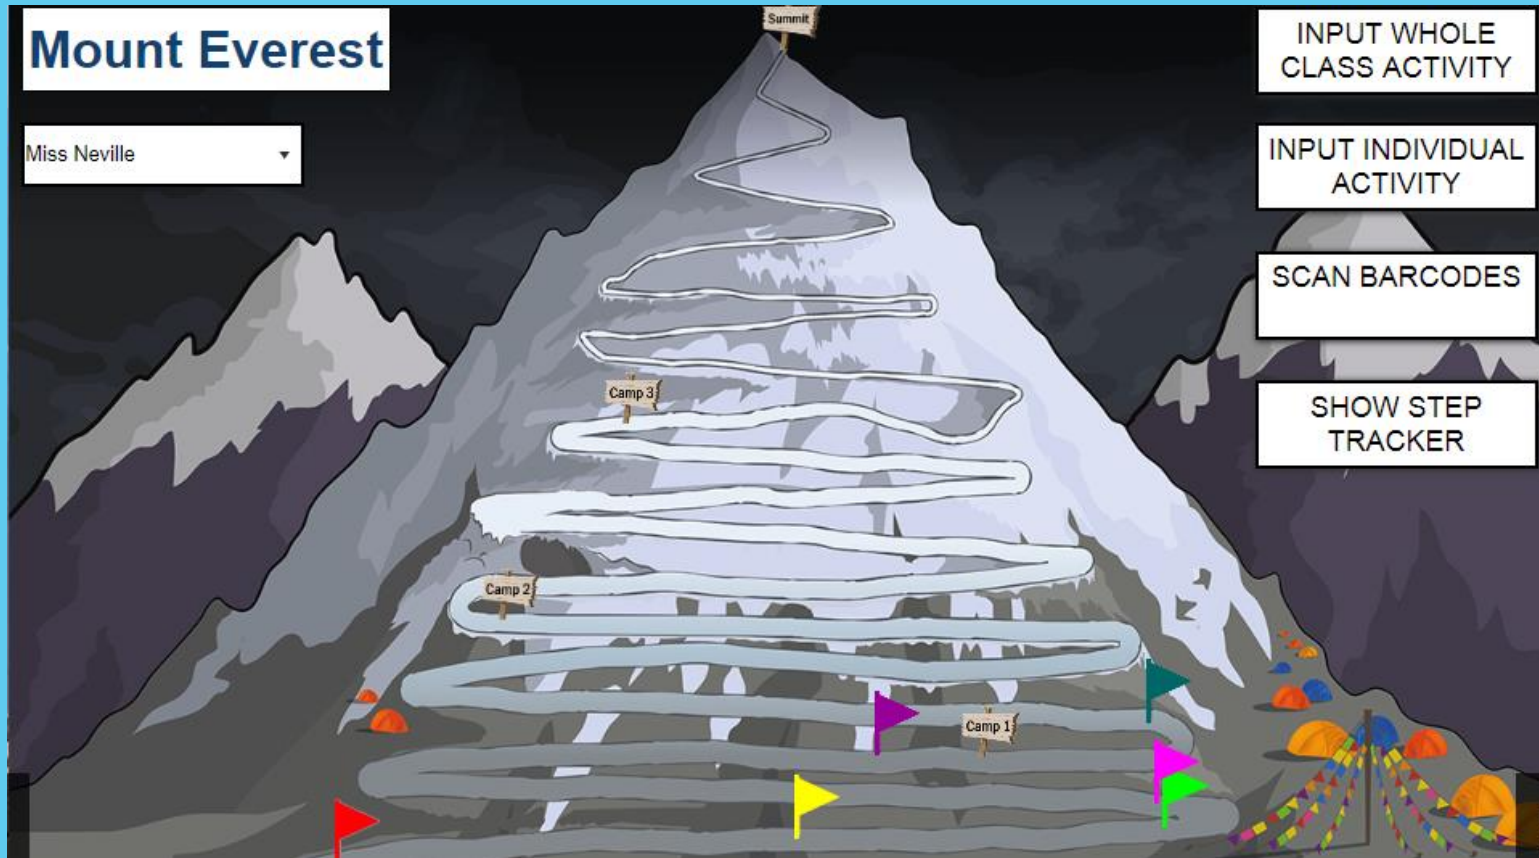

Why would someone want to climb a mountain?

THE SEVEN SUMMIT CHALLENGE

All of you will be able to see a little flag on your virtual mountain and when you do some measured walking at school, your flag will move further up the mountain.

This challenge is going to take a lot of hard work and commitment.

World Population:
7.5billion

Number of people who have climbed all seven mountains:
350

What does this tell us about the challenge?

What does it tell us about the people who have done it?

What skills will we need to be able to complete our mountain step challenge?

Jordan holds the record for being the youngest person to climb all seven summits at the age of 14!

He climbed his first mountain, Kilimanjaro, when he was just 10 years old.
