accommodate
seamount

English

In English, we are using the book 'Jemmy Button' and 'The Island.' The children will have the opportunity to write a discussion and develop their journalistic writing skills,.

PSHE

In PSHE, we are using the book 'The Thing' by Simon Puttock and Daniel Egneus.

PE

In PE, we will be focussing on tennis and dodgeball.

Computing

In Computing, we will look at e-safety and develop computational thinking and logical reasoning skills.

Science

In Science, we will be studying evolution and inheritance. The children will learn about how things have changed over time and how fossils provide information. They will also learn how offspring can vary and how animals have adapted to live in different environments.

Music

In Music, we will be learning songs based around diversity and difference.

Year 6 Spring 2

Evolve

Maths

In Maths, we will be studying: perimeter and area, volume, imperial measures, properties of triangles. We will also continue to work on arithmetic skills. We will also be revisiting and revising previously taught topics when necessary.

Art

In Art, our focus will be collage. We will study the work of Kurt Schwitters and develop identity collages based on ourselves.

End point

Children will have a deeper understanding of the concept of evolution and be able to raise questions and discuss ideas around this topic such as natural selection.
